

Please be aware that the Low Emission Zone (LEZ), which entered into force for the whole region of Brussels Capital on 1 January 2018, has been amended on 1 January 2019.

The regulation applies to the following vehicles; registered in Belgium or abroad:

- Passenger cars
- Vans ≤ 3.5 ton (vehicle category N1 on the registration documents)
- Buses and coaches

Which vehicles are affected by the Low Emission Zone ?

The regulation applies to **standard diesel cars** (vehicles without a EURO standard, EURO 1 and EURO 2) and **standard petrol vehicles** (vehicles without a EURO standard and EURO 1).

Visitors coming from abroad with a car that is not registered in Belgium, need to register their car.

Please do so by using the following link: <https://www.lez.brussels/en/content/registration> .

Failure to register before coming to Brussels may result in a fine of 350 €.

Therefore, if you are planning to come to Brussels by car, please register it well before leaving your country. More details and registration instructions can be found via the following link: <https://www.lez.brussels/en> .

Warning: do not rely on websites offering the purchase of environmental stickers/badges. Those stickers/badges are neither necessary nor valid to circulate in the Brussels' Low Emission Zone.
